8. SUGGESTIONS FOR FURTHER IMPROVEMENT

- Every thing is good and need to continue same with still more curriculum activity.
- Best College and Best Teachers

- Good as well as teaching too
- Everything is good 😊
- Very thing is super cool
- Try my best
- Pls give holidays for exams
- Good
- All are good, but periodical assessment through assignments are need to be given before the tests or exam with large no. days,, otherwise at the time of internal tests students gets insufficient of time to study
- Nothing
- Nice only
- Internal tests should be conducted seriously. Because till 2nd internals students are copied in the exams .
- I don't think any improvement
- "Nothing more is required,
- Everything's perfect "
- Good
- Everything is good
- Good teaching and covered the all syllabus thank you mam or sir
- None
- First of all, it is very important to teach and understand in a way that students can understand, especially financial accounting. If you do 10 of the same number of calculations, students will not learn, so what is the use. instead of making them understand only one calculation, the students will do the remaining nine calculations. 99th part of teaching in English is affecting many students and they don't understand. My opinion is that there is no big way because of fear among the students, they are not asking what they are saying, even if they don't understand, they are just sitting and discussing with their classmates only with their friends.. Please pay attention to this in the future.

ACTION TAKEN ON STUDENT FEEDBACK- 2022-23

Remarks	Action Taken
First of all, it is very important to teach and understand in a way that students can understand, especially financial accounting. If you do 10 of the same number of calculations, students will not learn, so what is the use, instead of making them understand only one calculation, the students will do the remaining nine calculations. 99th part of teaching in English is affecting many students and they don't understand.	The student and the HOD were called and it was found that the student is not regular to the class. The student was instructed to be regular to the class as concepts taught in the class, if missed, will lead to such issues. Regarding English also, the student was counseled.
Pls give holidays for exams	It depends on University Calendar of events
Know a days students are becoming criminals. It is bad to our colleges, it is bad to our society	The student was called for explanation. He mentioned that he had commented in general. The Principal guided him to give relevant suggestions and comments and enquired whether he would want any other kind of assistance as he is a differently abled child.
If the subject in course doesn't have textbook provide the soft copy of the syllabus and notes on it.	The library has adequate books and the same is given to students on rotation basis. Also faculty dictate/share the notes prepared by them for the examination preparation
Just the timings if it can be changed to 10:30 to 4:00 it will be easy to attend all the classes	Timings has been kept at 9.30 am to accommodate students who work part time in the afternoons after their class to finance their studies

ACTION TAKEN ON PARENT FEEDBACK- 2022-23

Remarks	Action Taken
Everything is agreed <input type="checkbox"/> Afternoon Classes are taken so longer period of time! Plzz maintain one dustbin.	Classes are conducted as per Timetable in the afternoon and as NEP has more experiential learning emphasis, short term courses of IIT and Infosys springboard are also additionally conducted. Classes end by 3pm except when students have labs.
Without solid reason if any student absent more classes or bunk the classes call parents immediately	The attendance is updated on Campus element and parents and students are oriented during orientation to check the attendance in the App on daily basis. In addition, class mentors call the parents and students if the student is not attending classes continuously.
I just wanted to have a personal interaction with teachers. Hope so at least by next semester college would conduct a parent teachers meeting. Extra club should be formed for sports . There should be volunteers to maintain sports item and make opportunity to play games for all students.	Parent Teacher Interaction is arranged on online platform to help all parents to attend. Also, parents are welcome to meet the teacher, HOD or Principal in the afternoon during working days. Sports Club-Kreedha Spardha is already formed and sports activities are being conducted on periodic basis - both indoor and outdoor

ACTION TAKEN ON FACULTY FEEDBACK- 2022-23

Remarks	Action Taken
Institution always provides opportunities to learn and grow as educators. As a head of the department, I have felt valued for the work that I do and always feel supported by Principal ma'am. Suggestions as such nothing from my end.	Institution gives opportunities for Ph.D. publication, etc
The institution could recognize the achievements of faculty immediately on achieving the same.	Achievements are recognised annually during increments
