Chief Editor's quill

I really enjoyed putting the magazine 'Drushti' together. As it is a record of all the activities performed in the academic year from June 2015 to April 2016.

These activities contribute to the all round development of the students. We leave no stone unturned to achieve excellence. Students who join us are mostly from the marginal sections of the society. Inclusivity is part of our college. Scholarships are awarded, opportunities are given to students to come forward and participate in all the planned activities that help them to develop all round personality.

I am very happy to note that students when they graduate from here and go out are placed well, run their own ventures and bring laurels to the college.

Message from President

It is my pleasure to share a few thoughts of the management in the 4th issue of Drusthi.

I have been keenly observing the progress of our First Grade College under the able and dynamic leadership of Prof. R. Parvathi and her dedicated team of faculty.

Innovative programmes have been the hallmark of the Degree College. And it is very great for me to note that many of our students have been placed in good companies.

Additional courses have been conducted to enrich the students knowledge. It is not in the academics but also in extra curricular activities of the College.

I complement Prof. R. Parvathi for providing motivation and inspiration to the students.

I wish everyone the very best in all their endeavours.

B.R.Viswanath Setty

Message from Hon. Secretary

Dear Students,

"We cannot always build a future for our youth, but we can build our youth for the future"

- Franklin D. Roosevelt.

These words by Franklin D. Roosevelt perfectly describe our aim at VET First Grade College and PG Center. Beyond providing a sound education, we wish to provide our students a holistic learning experience for life. Our aim is to teach students to LEARN, not just STUDY. Hence, we strive to travel beyond the boundaries of mere books. We have realized that the future is abstract and unknown but the youth in our hands are real and can be moulded.

Dear Students, "You are the nation-builders. You are the movers of technology. You are the agents of change". It is our fervent hope that the years that you spend in VET would enable you to equip with leadership and managerial skills.

The knowledge that you will gain, the fine qualities that you will imbibe and the technical skills that you will learn to apply will be your major contribution to your parents, to society and to the nation. Success in life will come by optimizing your potential.

Please make the best use of all the facilities that are available. Build your skills and maintain a balance between academic and co-curricular activities. Enjoy yourselves, by all means, but always remember the need for self-discipline, moral values and a sense of responsibility.

"You don't have to be great to start, but you have to start to be great".

Best wishes

Manandi N. Suresh

Principal's Desk

VET First Grade College firmly believes in complete education which means education directed towards career within the framework of thorough general education. Students are taught to think logically and communicate clearly.

To super, serious contender who join us in the learning environment at VET, we try to approach them in different modes: during their stay here, the progress of students at every level of learning is mentored. Meeting the challenges, that any institution faces and VET is no exception. Every staff member invades the mind of students to help them achieve their goals.

It gives me immense honor to promote the hard work and efforts put in by our staff and students by extending one more edition of "Drushti" which is culmination of various activities and articles of students and staff.

The college has continuously strived and extended quality education to the needy and diverse student population. Our great assets being the students and staff. This could be possible only with the great support of our management especially President B R Vishwanath Setty and Hon Secretary Sri Manandi .N. Suresh to provide all the resources needed by the students for their all round development. My appreciation to the entire teaching and non teaching faculty for their unconditional support and co-operation.

“Success comes to those who work hard and stays with those who don't rest on the success of the past”

A statement which really applies to our sister institution.

The landscape of education is changing at a very fast pace VET First Grade College is very much proactive to the changing scenario and is providing every possible opportunity to the student community to become a responsible citizen with a sense of commitment.

The release of DRUSTI the V E T First Grade College magazine is a befitting channel to showcase the continuous achievements of the Institution. Prof. Parvathi R with her team of Students, Faculty, Admin and Supportive staff always conquer the new heights with zeal and enthusiasm.

I wish the entire team, best of luck in their future endeavours. May the vision of the Institution to start a Research Centre bear fruit in the near future.

About the Trust and College

Vasavi Educational Trust was established in the city of Bangalore in the year 1979 with aim to developing an institution, offering value and need- based quality education to the general public. The hard work and efforts of vision of philanthrolist B.V. Rathnaiah Setty and his friends a lasting legacy has become a reality today. The trust is one of the premier educational trusts of Bangalore in Karnataka.

The management is spear headed by well- known educationist and entrepreneur Sri B.R. Visavanth Setty as President supported by dedicated team of office bearers Sakala Narasimhulu Chetty, AR Sri Ramulu, S.Gopala Krishnaiah Chetty as Vice Presidents, Manandi N. Suresh as Hon Secretary, R.A. Varadraj as Joint Secretary and B.S. Arun Kumar as treasures. Mentor Manandi Nanjunda Setty.

Vasavi Education Trust has today branched out in several directions and has registered tremendous growth in terms of size number and dimensions. It has extended educational service from kindergarten to Post Graduation.

VET First Grade College is one of the major contributions of the trust to society in the field of education, in the year 1995 offering, under graduation and post graduation courses Permanently Affiliated to Bangalore University and having been accredited by NAAC.

NSS, Rotaract, students Alumni, Students welfare, health club, cultural, sports, placement and many other clubs are active to keep students updated and involved to future ready.

College always maintained good records on scrolls of university and this year it has bench marked with many distinctions. Academic activities in short term certification course, workshop. Seminar and career orientation programme to a great extent.

The college has adopted new and healthy work culture involving total participation of staff and students in daily administration. The college is emerging as a centre of education which works for quality.

Apple Computer Company Founded

Apple inc. challenges Microsoft's dominance of the worlds of computing.

Apple was founded in 1976 by Steve Wozniak, an electronics hobbyist working for Hewlett-Packard in Silicon Valley, near San Francisco, and Steve Jobs, then a video games designer. Wozniak designed a computer for his personal use on an integrated circuit board, and Jobs persuaded him they set up a company. The Apple Computer Co., to do just that.

The name was chosen to be at the head of the alphabetical list of computer companies, ahead of the much larger Atari. Their first product, produced in Jobs' bedroom and garage, was the Apple I, one of the first personal computers to reach the market. It incorporated novel features, including a TV display and a keyboard, and sold for \$666.66. An updated version, the Apple II, came out the following year, with higher-resolution graphics allowing the display of pictures.

In January 1984, they released the first version of the Apple Macintosh, a computer with a monitor in a single box. It incorporated a "graphical user interface" and a mouse at a time when PCs used the more unfriendly DOS operating system. The Apple Macintosh was as a direct and more stylish competitor to the cheaper PC, and from this time onward, Apple generated and sustained a solid reputation for well-designed and niche products, employing the vertical integration of hardware and software that made them particularly attractive within the creative industries.

In April, 1981, Wozniak was involved in a plane crash that left him with temporary amnesia. Sadly, he was obliged to give up his position as Apple's product development supremo. He left full-time employment at Apple in 1987. Jobs left Apple in 1987, but returned to become its chief executive officer in 1997.

".....everything an Apple represents, health, personal, in the home."

Don't Complain

Great advice from the richest person in china Jack ma.

Jack ma saya,

“please tell your children that the world is changing every day no one is going to wait for the past.

- * when lighter was invented , matches slowly disappeared.
- * when calculator was created, abacus was to fade away.
- * when digital camera was designed, the market of negative film no longer existed.
- * when direct market selling/internet based selling arises, traditional marketing declines
- * when smart phone with 4g (wireless internet access) was introduced to the world, you no longer need to turn on your computer at home.
- * when We chat and Whats App (mobile text/voice/video messaging) are developed, traditional text messaging is no longer as popular as before.

Let's not to became "who took over business".

It's only because people are more adjustable and adoptable to new ideas and changes in the world.

Someone asked jack ma,

“what is your secret of success?”

He says,

“really simple-----

I am doing (ACTION) while you're only watching”.

Please remember that the world keeps changing every day.

If you don't change, you'll be left behind, you reap what you sow with your time.

If you spend time to drink, you may become an alcoholic. If you spend time to complain, you may become a blamer. If you spend time to beautify yourself , you may become a pretty girl/handsome guy.

If you spend time to stay healthy, you may enjoy a healthy good life. If you spend time to be picky, you may become a mean person. If you spend time to learn ,you may gain wisdom.

If you spend time with your family, you may foster a warm and loving relationship with your loved ones.

Invest Today, Harvest Tomorrow

“Never depend on single income. Make investment to create second source”-Warren Buffet

Investment is an important economic activity, which basically stems from income and savings and stimulates capital formation. Higher the income, higher will be the savings and higher can be the investment. Investment is an act of investing one's money in some profitable opportunity in such a way that risk and return are optimised. It is both an art and science and taking an investment decision can be an enjoyable experience, sometimes a painful dilemma. The whole gamut of investment management revolves around 4Ws and 1H.

When to invest? A beginner should start investing as soon as he/she takes up an employment or profession. Practically investment can materialise only when a person has surplus funds after meeting his normal and unusual expenses. Investment, started at a young age helps in building a huge corpus for future. Investment should become a habit for the individual.

Where to invest? There are various avenues where an investor can park his or her funds. The avenues include Bank Fixed deposits, Recurring deposits, National Savings Certificates (NSC) and Kisan Vikas Patra, Public Provident Fund, shares/stocks, mutual funds, National Pension Scheme, insurance, gold, bonds (though bond market is not very popular in India), real estate etc., to mention a few.

Why to invest? Investment is made, basically with the objective of receiving a good return, creating monetary base for future contingencies, for planned expenses like child's education, daughter's wedding, parents' medical expenses, tax benefits, safety purpose and for self to maintain a decent standard of living in future.

Who should decide? An investor can take investment related decisions on his/her own, provided he has the knowledge and experience of the scenario. On the other hand he/she can approach investment consultants who help in building and managing a portfolio.

How to invest? Choosing an investment venture depends on many factors like income of individual, age, qualification, priorities in life, risk taking capacity etc. Accordingly there are two types of investors – Conservative and Aggressive. Conservative investors are those who are risk averse and are interested in moderate and regular returns and are generally in the retired group or on the verge of retirement, whereas aggressive investors are high risk takers and who expect to earn high returns from their investment and belong to younger age group. But this cannot be generalised and there are exceptions to this rule as well.

Investment, if well planned and properly executed could do wonders for the investor. But the investor should exercise adequate caution while investing. As the famous saying goes “Do not commit all to a single boat”; the investors should never commit their entire funds in single investment avenue but should always diversify their investment to yield best returns and avoid risks. To conclude, “Anyone who is not investing now is missing a tremendous opportunity” – Carlos Slim. Invest and make investment an enjoyable, rewarding and wealth creation activity.

BUILD UNITY

“Link arms! Stand close! The world is filled.
With dreams you can together build.
Together foster friendship, and treat
Every man is just like you brother.”

Together all men's rights defend,
For whether enemy or friend,
The right of one's the right of all,
If one is lost the rest will fall.

Together lead a better life,
One free of greed and hate and strife,
And set a good example too,
That the entire World may follow you.

Reverse your God, respect all friends,
And live life fully till it ends,
So with your dreams like flag Unfurled,
Together build a better World.

Energy Follows thought

Thought is at the beginning of all creation. You create your thoughts! You're free to think anything you choose. The intent of thought is the primary mover of all creation. As u change ur thoughts, u incrementally change ur life – albeit, however minor thought is energy. Energy follows thought. Matter follows energy. Until thought is linked with purpose there is no intelligent accomplishment.

To have the life u envision, the life of ur dreams, u can use this ancient principle energy follows thought to work for u. simply notice ur thoughts and revise ur thinking. if each time u hear yourselves say, I cant , u just consciously shift ur thinking. If u then add positive affirmation and positive self talk to replace that limiting expression, u will feel a subtle change that begins to shift ur entire prospective.

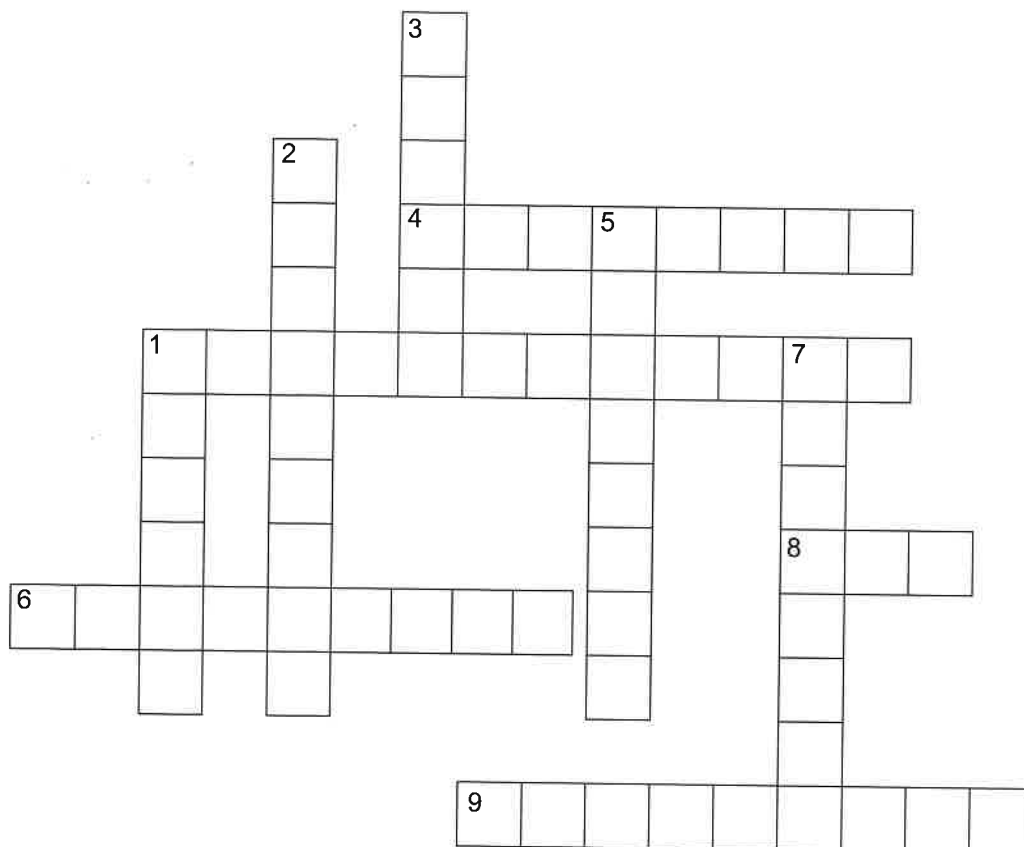

Law of Karma

Karma is the concept of action or deed, understood as that which cause the entire cycle of cause and effect. There is no mechanism that would allow a wish to come true other than by u going out and actually working to make it come true. Things don't just happen on their own they happen because hard work and we create the condition that make those dreams come true. If u wants something to happen think positive, picture it happening, and work for it. Go for it.

“The merits gained by planting trees for the benefit of others last forever.”

Mothers earth's love and care will vanish soon. There will be no trace of human race. There will be no chirping of birds, no sounds of any animal. The earth shall stand still like barren land, if we don't protect trees and our earth. We cannot live without trees. It is necessary to remember that there are many creatures living in this world other than the human race. The planet is home to all kinds of birds, animals, plants and insects. We need to protect the environment before it gets too late.

GOOD THINGS

MICROPHONE

The first microphone was invented as a telephone transmits by Alexander Graham Bell in 1876. It was a liquid device that was not very practical. In 1886 Thomas Alva Edison invented the first practical carbon microphone. The carbon microphone was used for radio transmissions and extensively in telephone transmits and extensively in telephone transmitters until the 1970s when they replaced by piezoelectric ceramic elements.

The carbon microphone had a limited frequency range and would not reproduce music efficiently, In 1916 the condenser microphone was developed by E.C wentle of bell laboratories. The condenser microphone required an amplifier built within the microphone to pick up the faint signals. Condenser microphones were used for radio broadcasting and the first generation of sound motion pictures.

MOTIVATIONAL QUOTES

1. A creative man is motivated by the desire to achieve, not by the desire to beat others.
2. The will to win, the desire to succeed, the urge to reach your full potential... these are the keys that will unlock the door to personal excellence.
3. Infuse your life with action. Don't wait for it to happen. Make it happen. Make your own future. Make your own hope. Make your own love. And whatever your beliefs, honor your creator, not by passively waiting for grace to come down from upon high, but by doing what you can to make grace happen... yourself, right now, right down here on Earth.

The Right Attitude

Attitude makes a big difference in our life. It is a perspective which helps us to understand ourselves and also others. Such perspective may sometimes prevent us from learning from others.

Right attitude helps us feel that each person we meet has the potential to teach us something. Everybody has something to share, something to teach us. We must keep our minds open and approach people with a desire to learn from them. But that is possible only if we have the right attitude.

There are some people who feel that no one can teach them anything. They do not wish to listen to the opinions of others. They think they know everything. People with such strong attitude do not realize how much they are harming themselves. The reality is that no one is too old, too smart or too successful to learn something new. The only thing that can come between a person and the ability to learn and improve is that person's wrong attitude.

Every person has something to share, a lesson learned, an observation, an experience. We just need to be willing to learn. In fact often people teach us things when they don't intend to do so. When it comes to learning, not only the young children learn from elders, but adults too learn from children.

Every parent would agree that they have learned from their children, even when their kids were infants, incapable of communicating a single word. The only time people can't reach us is when we are unwilling to learn. So, let us not shut ourselves from those who are willing to share their life experience with us.

MAKE IN INDIA

India is a country in the world which offers a unique combination of democracy, demography and demand.

Make in India initiative launched by prime minister Narendra Modi on 25th September 2014, aimed to make India a global manufacturing hub.

Come "Make in India" "come manufacture in India"

Sell in any country of the world but manufacture here. We have got skill, talent discipline and determination to do something.

The make in India program is an up initiative, launched to encourage companies to increase manufacturing in India. This not only includes, attracting companies to set up in India, but also encouraging domestic companies to increase production within a country.

Make in India gives boost to 25 major areas. They are Automobiles, Aviation, Biotechnology, Chemicals, Construction, Defence, manufacturing, IT and BPM, Health, Media and Entertainment, mining, oil and gas, ports and shipping.

Initiative Policy under make in India

1. New Initiative : This helps to improve business in India easily.
2. Foreign Direct Investment (F.D.I) : The government allows 100% FDI in all sector except space 74%, Defence (49%), New Media (26%)
3. Intellectual Property facts : This concept helps to Patent & Copyright in foreign countries.
4. National Manufacturing :
 - To increase share of manufacturing 12% to 14% per annum for a medium term.
 - To increases share of manufacturing in the countries G.D.P (Gross Domestic Product) from 16% to 25% by 2022.
 - Make in India will focus on building Physical infrastructure as well as creating digital network remaining to carry satellites to sub marine, to port and paper to power.
 - The government has said that it has so far received \$110 lakhs crore worth of proposal from various companies that are interested in manufacturing electronics in India.

Disadvantage of make in India is that when we invite FDI to our retail sector, economic competition will increase our country will become dumping ground of these products like KFC, Pepsi, Maggie, Pizza Hut, Mc Donald's, Dominos. Which have harmful chemicals which will harm human life in our country.

As it is youth are getting addicted to these things, I hope FDI doesn't become a conspiracy to harm our country

We are going a head with FDI, but with a thought of caution – we should quality control the products and I do hope that history doesn't repeat itself of flag follows trade i.e. Economic freedom should make the foreigners our master again.

So far we have seen both advantage as well as disadvantage of the concept, but as it has more advantage than disadvantages. So making India concept is necessary for Indian economic development.

This is not a story where the hero kills the villain and saves the heroine, nor a story of a warrior who saves his kingdom by killing hundreds of soldiers with his single hand. It is not even a fairy tale where a big tree has golden apples. This is a story of a T.V journalist who gets caught by the evil power of Black Magic.

The Horror Story of a Journalist.

Arjun a well educated orphan who believed in work and not in worship worked in a T.V channel called "The Truth" which was very famous, had very good TRPs. He was the creative director and presenter of the program.

As CD he created the program "The Powers of Black Magic" where his job was to record the videos of super natural elements. Once he recorded the program of Agoras performing Black Magic without their Knowledge. (Agoras are people who perform black magic and eat the flesh of dead bodies.) With the help of a Video Camera he wanted to catch the agoras red handed as he felt they were polluting the society. His efforts were appreciated so much that he was rewarded a flat by his channel head, and had won many awards for his diligent work.

Once he had a strange experience which turned his life to death.

On 11/3/2000 it was Wednesday as a project work he had been to a small village in Tamilnadu by Train, the name of the train was Chennai express it was on platform no.13 and his seat number was also 13B. the train was scheduled to leave at 10:20 pm. At 10:18pm the announcer announced that the train will be 10 minutes late, at the end of the speech the announcer coughed. While he was waiting for the train he saw some people crying on the opposite platform. He wanted to know the matter so he went to that platform. He came to know that their son a 5yr old boy died in the same village which he was about to go, incidentally he was also going to the same village. The train came and he boarded it.

He went to the Agoras place on Friday the 13th to shoot live videos of agoras performing Black Magic, While recording he stood behind a bush and saw the happenings, many things were arranged in a circle – it was a strange sight that met his eyes, a dead body-which to his amazement it was the body of the 5yr old boy of the family whom he had met at the railway station, a lemon pierced with rusted nails, a black doll, some fresh blood in a bowl, skeleton pair of hands and legs, a sculpture of Kali and finally blood dropping from a skull in the center of the circle. It looked as if the agora was bringing back the dead boy's body to life. After some time, Arjun sensed something moving on his hand, it was a black cobra. He screamed loudly and ran towards the circle and stood in the center, this disturbed the agora and cursed him "nee varuva amavasyakulle settu porve da paave, nee yanna anji (5) varsho tapassu nasham pannite" which literally means "you sinner, you have spoilt my five (5) years of salvation, you will be dead with in the next dark night". Arjun understood as he knew Tamil and he ran from that place, reached his hotel but his mind was still there. Somehow he came back to his home town - Bangalore. He did not give this video to the channel as he did not have full footage...

A few days later as usual after his work he returned home, finished his dinner and started working on his project, slept late in the night. In his dream, he heard somebody knocking at his door; he was awakened and noticed the lights blinking very fast for some time. Arjun opened the door and could not see anybody, he came out of his house, checked the balcony if there was anybody, after some time he saw a very strange green eyed black cat near him which he brought inside the house; fed it with milk and went to bed. When he woke up again he saw blood stains on the floor and was shocked, he followed the path and saw, the cat was dead. He observed that the cat's body was tarred and its flesh was missing, he also noticed the agora's words which were written from cat's blood on the wall in Tamil. This type of scary dreams came to him regularly for almost fifteen days.

As expected, it was the night which the Agora had referred to came. It was Amavasya, the dark night; no moon in the sky. He felt that he had fever of 110° degrees; was it real or he was imagining, he locked himself in his room and thought that he would soon die as the agora had cursed. After some time he saw smoke entering his room from the key hole of the door and the smoke grew into a huge ugly looking, seven foot tall lady (ghost). The ghost entered and went out of his body.

The next morning, his driver rang the door bell, no one answered. Cab driver kept ringing Arjun's door bell for a few hours and then notified the police. The policemen came and broke open the door and saw Arjun's body lying on the floor. It was sent to the hospital, the doctors declared him brought dead and sent his dead body for post mortem as they could not see any injuries on his body which would state the cause of his death.

Arjun saw a red light in front of him he saw that the red light was coming closer to him, on observing he saw demons punching some people It was HELL... as he moved forward he saw the red light becoming white and now it was full white, he also saw some angles around him and It was HEAVEN... but as he was about to enter it he experienced a pull from the back and it was a force pulling him back.

On opening his eyes he found himself on the platform in Bangalore, the people were all the same. It was 11/3/2000 Wednesday and the time was 10:18 the announcer announced that the train was 10 minutes late and coughed. He did not understand what was happening? He saw the same people crying on the opposite station. He was tense and noticed that his camera was on. He was shocked to see the footage about what was going to happen on Friday the 13.

Next morning he wanted to show the footage to all his colleagues. He invited everyone to the director's cabin. He plugged in, switched on his camera and, to the amazement of every one it was completely blank. His colleagues laughed at him, and asked him to take leave for a few days. They commented that he had begun to create his own zombie stories.

He shifted to Mumbai and made a fresh beginning there. While the show at Bangalore stopped airing as no one was able to replace him.

The ALMIGHTY had given his life back as he was a good man.

QUOTES

- Happiness is a butterfly, which when pursued, is always beyond your grasp, but which, if you will sit down quietly may alight upon you.
- Try not to become a person of success, but rather try to become a person of value.
- Great minds discuss ideas, average minds, discuss events, small minds discuss people.
- If you don't value your time, neither will others. Stop giving away your time and talents. Start charging for it.
- Take up one idea make that one idea your life. Think of it, dream of it, die on that idea let the brain, muscles, nerves, every part of your body, be full of that idea, and just leave every other idea alone. This is the way to success.
- Good things come to people who wait, but better things come to those who go out and get them.

POWER OF SELF TRANSFORMATION

It is said that constant change is the nature of the world. But, who is behind all these changes? It is primarily human beings. In fact, no specific effort is needed for negative transformation. Even though the modern world boasts of many achievements in the physical field, life in general carries on in turmoil and turbulence. We all know that the emotional lives of many are in doldrums; inter-personal relationship is strained. The ability to engage in Conflict Management is weak. So ultimately, negative changes are on the rise resulting in violence, corrupt practices, nepotism, red tape and religious/unreligious tendencies. There is an unprecedented crisis of character. It is well said that if "Character is lost everything is lost".

Even though a human being is a thinking species, people in general are not very bothered about whether one thinks negative or positive. They are of the impression that it is natural to think positive, negative, waste and ordinary thoughts and so, negative thinking and doing are not purposely done but have become a trend in the changing times.

It is necessary to enforce the power of positive transformation in present times. Self-transformation leads to world-transformation.

Good character, Sound morality and Positive thinking are rooted in spirituality. Spiritual empowerment reinforces the power of Transformation. Therefore, it is necessary for us to list out the personal areas wherein we should start working for Quick Self-Transformation.

Transformation in thoughts and reflection:-

Primarily, it is necessary for us to change our thinking and reflection process. We should start thinking on positive lines. Positive thinking is part of our innate nature. Since everything starts with a thought, if there is a change in the thought process then our words and actions will follow suit. The entire seed of creating a world order of peace lies in a single thought. It is famously quoted "Mind your thoughts, they become words, mind your words, they become actions; mind your actions, they become habits; mind your habits, they become character; mind your character, it becomes your Destiny."

While a majority of our thoughts can be wasteful and negative today, we need to make efforts to continuously sustain positive, pure, and elevated thoughts. This is made possible if we are Soul-Conscious and God-Conscious.

Transformation in character:-

Since there is a weakening in the quality of thoughts due to the influence of vices individuals have come to develop defects in character. The vices of sex-lust, anger, greed, and ego have a great impact on our thought processes and emotions. When our awareness is transformed from body-consciousness to soul-consciousness, our thoughts become devoted that further creates good character. Our each thoughts influences millions of our body cells and affects the flow of our consciousness.

Transformation in our interaction and dealing:-

The third area we should transform is the way we interact and deal with people, events and situation. At times, it so happens that we ourselves dislike the way we respond and hardly people and scenes of life and yet cannot help ourselves. It is necessary for us to examine and re-examine ourselves keep the aim of having interactions as dealing that are compassionate, yet assertive as the time demands, we cannot be rough and tough all the times since our dealings should benefit our self and others too.

Transformation in our nature:-

Be introspective about one's habits and present nature. Sometimes, our nature and habit influence our decisions and interaction without our consent. Such situation can be awkward without our consent. Such situation can be awkward and embarrassing. Good habits and manner create an amicable nature. Re-emerge one's eternal virtues often so that they sustain and empower you. Aim to live by and share the eternal virtues of peace, love, purity, truth, honesty non-violence and so on. Pay attention to every thought, word, action then success is inevitable

Effects of Negative thoughts...

The moment negative thought enter your mind.

1. Your body releases acid
2. Your aura decreases
3. Your resistance power decreases
4. Your system's function are affected
5. Your heart beat increases.
6. Your blood pressure increases.
7. Unwanted hormones are released.
8. With that negative thought you may or may not harm other..... But you definitely harm yourself think positive and be healthy....

Power of Visualisation

From imagination to reality.

You may not want to hear what I'm going to say next but it's a fact - not only a fact but a law - a law of mind science!

Everything negative in your life - every money problem, every failed relationships - every worry and anxiety you are dealing with is created in one place only and that place is

... in your run mind !!!

Need a miracle in your life? Perhaps you just might be able to create one using your own ability to imagine. While the first place to start may well be with your own thinking, there is more work to do if you want that miracle to arrive. If you're willing to use your own imagination and back it up with the requisite work, miracles do occur. Your own willingness to sign up for the possibility!

How it works? The subconscious mind accepts the thoughts that you often repeat. When it accepts them, it changes your mindset accordingly, as well as your habits and actions. This brings you into contact with new people, situations and circumstances.

You are not employing magic on supernatural powers, but using only natural powers. You only change your thoughts and attitude, but they change and reshape your world. Not just positive thinking but also positive action works.

Mother's Love

God could not be everywhere and therefore, he made mother. A mother understands what a child does not say, she is such a special word, the loveliest I have ever heard.

A mother gives life, nurtures, teaches and fights for you but most importantly loves you unconditionally.

A mother's heart is a special place, where children always have a home !!!

Love your mother, the most beautiful person on this earth. Our best critic, yet our strongest supporter.

Mother hold their child's hand for a moment and their heart for a life time.

M - is for the millions of things you gave to me

O - is for the ocean of love you have for me

T - is for the tears for shed for me.

H - is for the heart that beats for me

E - is for those eyes that shine on seeking me grow

R - is for the reverence I always have for you

OPERATOR : Yes, you can speak to me.

CALLER : No, I want to speak to Annie Wan?

OPERATOR : Yes, I understand you want to speak to anyone. You can speak to me who is this?

CALLER : I'm Sam Wan and I need to talk to Annie Wan! It's urgent.

OPERATOR : I know you are someone and you want to talk to anyone! But what's this urgent matter about?

CALLER : Well.... Just tell my sister Amie Wan that our brother Noe Wan was involved in an accident. Noe Wan got injured and now Noe Wan is being sent to the hospital.

OPERATOR : Look, if no one was injured and no one was sent to the hospital, then the accident isn't an urgent matter. You may find this bilarious tent? don't have time for this!

CALLER : You are so rude! who are you?

OPERATOR : I'am Saw Ree.

CALLER : Yes! you should be sorry. Now give me your name!!!

OPERATOR : That's what I said. I'am Saw Ree.

Your phone number will reveal your age.

Amazing - Amazing Amazing.

Your phone number will reveal your actual age. I don't know who discovered this?

But it is... Really accurate.

It will take about 15 seconds, read and do it at the same time so that you will not lose the fun.

1. Take a look at your last digit of your cell phone number.
2. Use this figure and multiply by 2
3. Then add 5
4. And then multiply by 50
5. And then add the number 1765.
6. The last step : with this number, subtract your birth year.

Now you see a three - digits number. The first digit is the last digit of your phone, the next two digits are your actual age!

Isn't this surprising? Try it...

Really amazing

Stay Motivated

Good things come to those who believe better things come to those who are patient and the best things come to those who don't give up.

MICROPHONE : The first microphone was invented as Telephone Transmitter by Alexander Graham Bell in 1876. It was a liquid device that was not very practical. In 1886, Thomas Alva Edison invented the first practical carbon microphone. The carbon microphone was used for radio transmissions and extensively in telephone transmitters until the 1970's when they were replaced by piezo electric ceramic elements.

The carbon microphone had a limited frequency range, and would not reproduce music effectively. In 1916, the condenser microphone was developed by E.C. Linte of Bell Laboratories. The condenser microphone required an amplifier built within the microphone to pick up the faint signals. Condenser microphone were used for radio bread casting and the first generation of sound motion pictures.

HISTORY OF DENIM

Ever since its creation in 1873 by Levi Strauss, Denim has been the top clothing choice of fashion all over the world. Lots of other clothing options came, but none of them could affect its popularity.

Denim is a sturdy cotton. Warp-faced twill textile material in which the weft passes under two or more warp threads. It is a characteristic of most indigo denim that only the warp threads are dyed, whereas the weft threads remain plain white. As a result of warp-faced twill weaving, one side of the textile shows the blue warp threads and the other side shows the white weft threads this is why blue jeans are white on the inside.

Research on the jean fabric shows that it emerged in the cities of Genoa, Italy and Nimes, France. Genes is the French word for Genoa, may be the origin of the word "JEANS". In Nines, weavers try to reproduce jean but instead developed a twill fabric that became denim, from de Nines, meaning "from Nines".

Jean became popular in the united states when Levi Strauss & Co. introduced blue jean overalls in 1873. Levi Strauss, a young man in 1851 went from Germany to New York to join his older brothers who ran a goods store. In 1853, he moved to San Francisco to open his own dry goods business. Jacob Davis was a tailor who often bought bolts of cloth from Levi Strauss & Co. wholesale house. In 1872, Davis wrote to Strauss asking to partner with him to patent and sell clothing reinforced with rivets. The copper rivets were to reinforce the points of stress such as pocket corners. Levi accepted Davis's offer and the two men received US Patent No. 139.121 for the same on May 20, 1873.

The truth is, the company was founded by a man born as "Loeb Strauss" in Bavaria in 1829. At the age of 23, Loeb decided to get in to dry goods business for himself, perhaps thinking that the easiest way to make money during a Gold rush in California, was to sell supplies to miners. No matter, what the reason, San Francisco was a kind of city, where people went to reinvent themselves and their lives & this proved to be true for Loeb, who changed his name to "Levi", sometime around 1850, for which we should be grateful, or else we would be wearing "Loeb's Jeans" and not Levi's.

हमारी दुनिया हमारी सोच

लड़की है कोई खिलौना नहीं
बहन है कोई दिखावा नहीं।
रखी है तेरी कलाई मैं
पर रक्षा करने की कोई निशान नहीं
साया है तुम्हारी माँ
पर उसी को कोई सम्मान नहीं
कैसा ओ भाई कैसा ओ बेटा
किसका सिर झुके शर्म से आधा आधा।

गेहरी गेहरी सी है अंधेरी
पर रोशनी की उमीद है बडी सी
आसमान है ऊँचा ऊँचा
पर छुन की हाथ है छोटी सी
मंजील है बहुत दूर
पर होसले है मजबूत
पत्थर दिल बनी है दुनिया
जिसने रोक दी हमारी उड़ान
सामने भी मेरी मंजील
पर छून न दिया वो आसमान

..... प्यार हे एहसास है
एक रोशनी की तलाश है।
जो खोल दे सारे दरवज़े
जो दिखा दें सपनों के रास्ते
एक ऐसी दुनिया का इंतजार है।
खुदगजि नहीं हम न बेवाफा है।
दुसरोँ की इच्छा नहीं अपनी इच्छा
कायम करने की एक छोटी सी आस है।

कैसा नियम है इस दुनिया का
जो कर दें माँ बाप को अपनी बेटी से जुदा।
जिसे पाला बड़े नाजों से जिसे जुड़ा ना
किया अपने सिने से।
आज उसे दिया करना है किसी पराये से
आँगन थी जो हरी भरी

माँ

संस्कृति में कहा गया है मातृदेवो भव, माता अभति देवी है वह ममता की मूर्ति है। प्रेम, त्याग, करुणा, सहानुभूति, सहनशीलता की तिजोरी है। माँ का हृदय सागर के समान गंभीर और विशाल है। आज के बच्चे को कल का नागरिक बनानेवाली माँ ही है। घर ही बच्चे के लिए प्रथम पाठशाला है। माँ बच्चे के लिए प्रथम पाठशाला है। माँ बच्चे के लिए प्रथम गुरु है। गुरु जो काम नहीं कर सकता उसे माँ करके दिखती है। खुद भूखी रहकर बच्चे को खिलाती है। बेटे के करतूत पर पिता नाराज हो सकता है। उसे सुना भी दे सकता है। लेकिन माँ उसे माफ कर देती है। माँ हमेशा बच्चे की भलाई चाहती है। भारतीय ग्रंथों में माँ की महत्व बताई गई है। मैं यहाँ तक कहता हूँ "सब घरती का मुह करूँ लेखनी सब बनराय सात समुधे की मसि करु माँ भुण लिख न जाय। किसी भी महापुरुष को देखिए वह प्रत्येक्ष या अप्रत्येक्ष रूप से माँ से ही प्रभावित है। माँ की महिमा अपरंपरा है, अमाँ की महिमा अपरंपरा है, अभीमित है, अवर्णनीय है, अकधनीय है। रोनेवाला बच्चा माँ की गोद में रोते हैं। माँ अपने बच्चे के लिए सब कुछ कुर्बान करसकती है। कभी-कभी भक्तिमत मार्थ को भूलकर तैयार हो जाती है। प्रिय से प्रिय चीज को न्योछावर करती है। उपहार के रूप में माँ के चरण कमल पर शीश झुकाने हुए करता हूँ कि चरणों पर अर्पित है चाहो तो स्वीकार करें। यह तो वस्तु तुम्हारी ही है। ठुकरा दो या प्यार करो।

रमजान RAMZAN

बरकत और रहमत का पाक महीना - रमजान भारत एक धर्मनिरपेक्ष देश है। यहाँ सभी धर्मों को समान दृष्टि से देखा जाता है। भारत की मिली - जुली संस्कृति में आपको हर धर्म का रंग देखने को मिलेगा। यहाँ हर धर्म के त्योहारों के समान हर्षोल्लास के साथ मनाया जाता है। भारतीय संस्कृति की यही पहचान हमें फल से रमजान के पाक महीने के रूप में देखने को मिलेगी।

WHO IS ROJEDAR

कल से बरकत और रहमतों का महीना रमजान शुरू हो रहा है। " बुराइयों से तौबा कर अल्लाह की इबादत करने का यह महीना मुस्लिमों " के लिए खासा महत्व रखता है।

रमजान का महीना बेहद पाक और रहमतों वाला होता है। इस महीने में इबादत का सत्तर गुना ज्यादा शबाब मिलता है। रमजान में रोजा (खास तरह का व्रत) रखने का खास महत्व होता है। रमजान के महीने में ३० दिन लोग रोजा रखते हैं। इसके बाद इस महीने के आखिरी दिन ईद मनाई जाती है। अगर आखिरी दिन चांद न नज़र आए तो ईद एक दिन बाद भी मनाई जाती है।

What is ramzan कैसे रखते हैं रोजा

रोजा रखने पर इंसान के आंख, हाथ, दिल और मुंह से कुछ भी बुरा करने से परहेज करना चाहिए। रोजा रखने वाले इंसान को हमेशा बुराई से तौबा करत रहना चाहिए। इससे रोजा रखने वाले का दिल साफ रहता है। रोजा के दौरान रोजा रखने वाले को सूर्य निकलने से पहले से सूर्य डूबने तक किसी भी तरह की चीज़ खाने-पीने से परहेज करना चाहिए। रोजेदार के दिन की शुरुआत इल्की सुबह में अज़ान से पहले सेहरी खाकर होती है।

How is Ramzan celebrated?

रमजान की नमाज रमजान को कुरान का भी महीना कहा जाता है। रमजान की रात में एक विशेष नमाज होती है जिस तरावीह कहते हैं। यह सबसे लंबी बीस रिकान के दौरान पढ़ी जाती है। इस नमाज को पढ़ाने के लिए हर मस्जिद में एक हाफिज को बुलाया जाना है। हाफिज उसे कहते हैं जिसे पूरा कुरान याद हो।

Shab-E-Qadr : रमजान की पाक रातें

रमजान में शब-ए-कद्र की रात विशेष महत्वपूर्ण होती है। रमजान की 21, 23, 25, 27, 29 वी रात शब-ए-कद्र की रात होती है। इस रात अल्लाह की रहमत खास तौर पर होती है। यह रात एक हजार रातों से बेहतर होती है। इस लिए इस रात को खास इबादत होती है।

रोजों के दौरान जो सबसे महत्वपूर्ण बात होती है वह है ना कोई बुरा काम करना और ना ही करने देना। रोजों के दौरान रोजेदार को अगर कुछ बुरा होते हुए दिखाई दे तो उसे यथासंभव रोकने का प्रयास करना चाहिए।

महिला सशक्तिकरण Women empowerment

जब है नारी में शक्ति सारी, तो फिर क्यों नारी को कहे बेचारी ।
महिलाओं को दे शिक्षा का उजियारा, पड-लिख कर करें रोशन जग सारा ।
सशक्त नारी से जो बनेगा सशक्त समाज ।
नारी का करो सन्मान, तभी बनेगा देश महान ।
बराबरी का साथ निभाएँ, महिलाएँ सब आगे आएँ ।
मैं भी छु सकती हूँ आकाश, मौके की है मुझे तलाश ।
जीवन की कला को अपने हाथों से साकार कर
नारी से संस्कृति का रूप निखारा है । नारी का अस्तित्व ही सुन्दर जीवन का आधार है ।

बच्चों को शिक्षा की जरूरत

शिक्षा मनुष्य के जीवन में बहुत महत्वपूर्ण है। शिक्षा शिक्षित बात करना। शिक्षित विचार, संस्कृति ये सब एक आदमी को जानवर या निरक्षरों या पत्थर-युग के पुरुषों से अलग और ऊर्चा करता है। इस प्रकार, शिक्षा एक निश्चित उम्र तक के सभी बच्चों को दिया जान चाहिए। बुनयादी न्यूनतम शान और कोशल, हर व्यक्ति को दिया जान चाहिए। शिक्षा के बिना इस आधुनिक समाज में, किसी भी अच्छी नौकरी पाना या पैसे कमाना संभव नहीं है।

education

बच्चों को किसी भी कोशला, संस्कृति, जीवनशैली, स्वास्थ्य, स्वच्छता, समाज में व्यवहार करने का तरीका, शिष्टाचार आदि नहीं सीख सकते हैं। भारत जैसे देश में सभी लोगों को शिक्षित करने के लिए सुविधाओं की व्यवस्था करना आसान नहीं है। मुख्य कारण है भ्रष्टाचार और भारत को विशाल जनसंख्या और गरीबी। बहुत सरकारी स्कूल बनाना बच्चों को दिन के दौरान स्कूल में खिलाना, गरीब लोगों के लिए और निश्चित रूप से अविकासीत वर्गों के बच्चों के लिए हॉस्टल बनाना, विभिन्न योजनायें बनाना, उद्यायन सामाग्री उपलब्ध कराना है।

ग्रामीण लोगों को उनकी गाँवों के नजदीक में जब रोजगार मिलते हैं तो तब शिक्षित सभी बच्चों अपने गाँवों में जाएंगे। वहाँ अपने गाँवों को विकसित करेंगे। और उनकी शिक्षा सफल हो जाएगा।

 Joyfull Team

Joyfull team Joyful team
 we enjoy our life with all
 Beautiful things in the world
 Joyful team Joyful team
 we have tears in our life
 But we enjoy it
 we join our hands to gether to
 make others happy
 Joyful team Joyful team.
